About Us

Metal Sign is the forefront of steel and aluminum fabrication in Bangladesh, setting industry standards since 2016. We specialize in a wide range of services, including gate, railing, door, window, staircase, and much more. With a track record of over 150 completed projects, we've become synonymous with precision and innovation in our field.

Our services encompass the design and construction of gates, doors, windows, railings, and stairs, catering to both residential and commercial needs. From modern duplex stairs to glass partitions and swimming pool structures, our portfolio showcases the breadth of our capabilities. Metal Sign is your trusted partner for top-quality craftsmanship and design excellence.

VAt Metal Sign, we pride ourselves on turning architectural concepts into tangible masterpieces. Each project reflects our unwavering dedication to quality and innovation. When you choose Metal Sign, you're selecting a partner committed to transforming your ideas into enduring, extraordinary structures that stand the test of time.

Why choose Metal Sign!

Quality Commitment

We prioritize precision and excellence in all our services, ensuring the highest quality in every project.

Comprehensive Expertise

Our diverse skills cover gates, doors, windows, railings, stairs, and more, meeting all your fabrication needs under one roof.

Design Innovation

With a passion for design and innovation, we turn architectural ideas into unique, tangible masterpieces.

Proven Excellence

Our track record of over 150 successful projects speaks to our reliability and industry-leading performance.

Meticulous Craftsmanship

Our work, from gates to glass partitions, reflects unwavering dedication to meticulous artistry and quality.

Mission

Our mission at Metal Sign is to excel in steel and aluminum fabrication by transforming architectural ideas into excellence. We strive to be the trusted partner known for delivering enduring and striking solutions.

Core Values

Vision

Our vision is to lead the steel and aluminum fabrication industry, setting new standards for design and quality. We aspire to be the epitome of craftsmanship and innovation, reshaping the future of construction and design.

Our Working Process

Types of Gate

Swing Gate:

Swing gates are a common type of access control system that pivot on hinges to open and close, much like a door. These gates are used to secure driveways, entrances, and other access points. Swing gates come in single or double configurations and can be made from various materials, including metal and wood.

Sliding Gate:

Sliding gates are a type of access control system used for securing driveways, entrances, or other access points. They operate by moving horizontally along a track to open and close, providing a convenient and space-efficient solution for controlling entry and exit.

Types of Gate

Automated Gate:

Automated gates are gate systems equipped with electric or hydraulic mechanisms that enable remote control or automatic operation. They are commonly used for security and convenience, allowing users to open and close gates with remote controls, keypads, or sensors.

Retractable Gate:

A retractable gate is a space-saving security or access control solution that can be extended or retracted horizontally or vertically as needed. These gates are often used in retail settings or for temporary access restriction.

Types of Staircase

Duplex Straight Staircase:

A straight, linear flight of stairs that offers simplicity and functionality. It's a common and affordable choice suitable for various architectural designs.

L-Shaped Duplex Staircase:

Forming an "L" shape, this staircase offers privacy and efficient use of space. It's an ideal choice for corner installations.

Types of Staircase

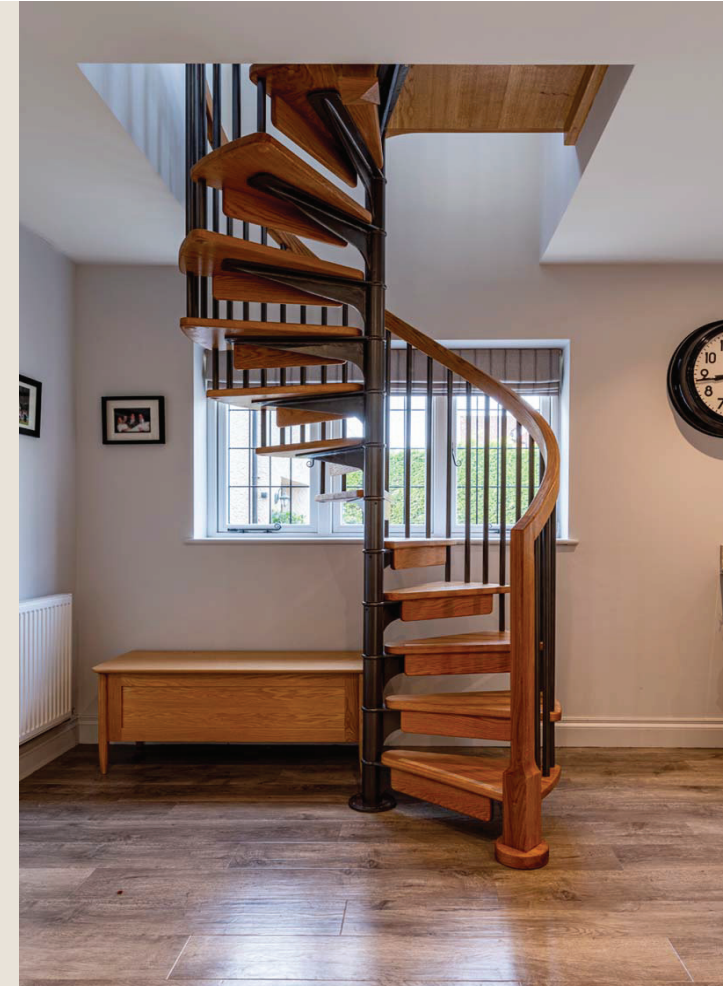

Duplex Curved Staircase:

Featuring a graceful curve, this staircase combines elegance with practicality. It adds a unique aesthetic to the space it occupies.

Spiral Staircase:

A compact and visually striking staircase that spirals upwards, saving space while adding a captivating design element.

Types of Staircase

U-Shaped Duplex Staircase:

Consisting of two parallel flights of stairs joined by a landing, creating a 180-degree turn. U-shaped stairs are known for their architectural flexibility.

Floating Staircase:

These staircases create a sense of lightness and openness by appearing to "float" without visible support structures, relying on hidden anchors.

Types of Staircase

Cantilevered Staircase:

Known for their bold and minimalist design, these staircases extend from a wall or structure, appearing to defy gravity.

Helical Staircase:

These elegant staircases feature a gentle curve and smooth, flowing lines, making them a focal point of interior design.

Types of Staircase

Switchback Staircase:

Also known as "dog-leg" stairs, they feature two flights that make a 180-degree turn with a landing in between, maximizing space efficiency.

Split Staircase:

A unique design with a split in the middle, offering two separate paths to ascend and descend, adding a touch of architectural flair.

Completed Project

Project Name: L-Shaped Duplex Staircase

Project Location: Chashara, Narayanganj

Client Name: Kamrul Ahsan Maruf

Timeline: December 1 - December 15, 2021

Materials: We utilized a combination of mild steel, high-quality steel tread, Shegun Teak Wood, crystal-clear glass railings, stainless steel glass balusters, solid wood with Lacquer Polish, and an Italian Duco Paint Finish.

Description: We crafted a premium L-shaped Duplex Staircase that marries steel, wood, and glass for both durability and aesthetics. It embodies safety, comfort, and artistic flair.

Challenges: Our challenge was to excel in a saturated market with similar staircases. We exceeded client expectations.

Completed Project

Project Name: Premium Duplex Stairs Railing

Project Location: Chawkbazar, Dhaka

Client Name: Haji Saddique Selim

Timeline: July 31, 2022, to August 30, 2022

Materials: Shegun wood, high-quality mild steel, crystal-clear glass, Italian Duco paint.

Description: Crafting a modern duplex stair railing that combines safety and elegance.

Challenges: Mr. Haji Salim, a prominent figure in Chawkbazar, Dhaka, entrusted us to create a pioneering modern duplex stair railing, a unique challenge due to the material's unavailability in Bangladesh. However, his trust in our capabilities, coupled with our commitment to excellence, allowed us to exceed expectations, meeting the 3D design with precision and earning his utmost satisfaction.

Completed Project

Project Name: Duplex Straight Staircase

Project Location: Dhanmondi, Jigatola, Dhaka

Client Name: Dr. Fazlulu Huda

Timeline: August 10, 2022, to September 5, 2022

Materials: Mild steel box frame with high-quality steel tread, Barmatic Shegun wood, wooden handle, stainless steel and wooden vertical balustrade railing, 3/4" SS pipe horizontal line, Wood Lacquer Polishing, Italian Duco Painting.

Additional Notes: The Duplex Straight Staircase is a linear flight with no bends, offering affordability and ease of installation. It requires minimal support, making it suitable for various designs. Its non-steep nature and user-friendly features make it ideal for all ages, and its simple appearance complements minimalistic designs. Clients highly appreciate our services.

Completed Project

Project Name: Duplex Curved Staircase

Project Location: Jigatola, Hajaribag, Dhaka

Client Name: Nahida Sultana Sharmin

Timeline: July 25, 2022, to August 28, 2022

Materials: Mild steel box frame with high-quality steel tread, Shegun Teak Wood, wooden handle, Nasir Cleartempared glass railing, stainless steel glass baluster, Solid wood Lacquer Polishing, Italian Duco Painted Finish.

Project Challenges: Creating a modern duplex staircase for our esteemed client in the limited space of Jigatola was a significant challenge. However, we successfully implemented the client's vision, ensuring accessibility for people of all ages.

Completed Project

Project Name: U-Shaped Duplex Staircase

Project Location: Trishal, Mymensing

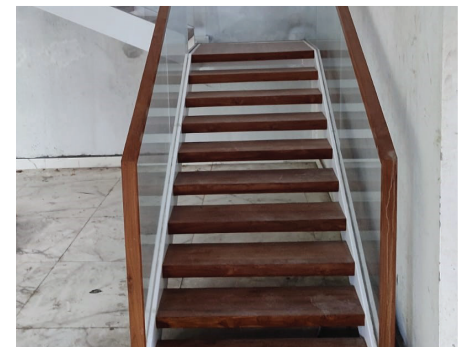

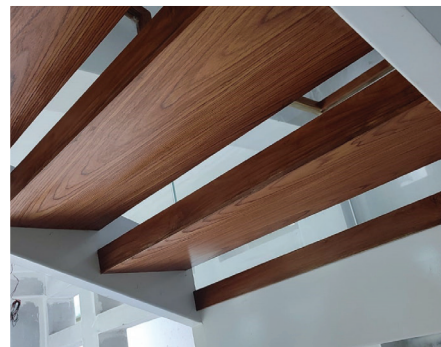

Client Name: Shakil Ahmed

Timeline: February 25, 2023, to March 30, 2023

Materials: Mild steel box frame with high-quality steel tread, Shegun Teak Wood, wooden handle, China Crystal Clear Glass, Solid wood Lacquer Polishing, Italian Duco Painted Finish.

Project Challenges: Crafting a modern duplex staircase for our esteemed client, Mr. Shakil Ahmed, in a remote location like Trishal, Mymensingh District was a significant challenge. Nevertheless, we successfully delivered the project according to his precise requirements, resulting in his high satisfaction.

Project Scope: In addition to the U-shaped staircase, our scope of work encompassed other elements such as balcony glass railing, common stair railing, Thai aluminum, and more.

Completed Project

Project Name: U-Shape Duplex Staircase

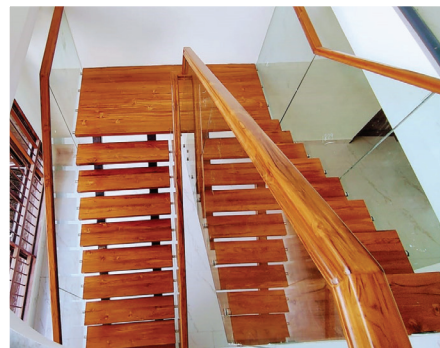

Project Location: Banasree, Rampura

Client Name: Anamul Shohag

Timeline: June 3, 2023, to July 5, 2023

Materials: Mild steel box frame with high-quality steel tread, Shegun Teak Wood, wooden handle, 10mm Nasir Clear Glass Solid wood Lacquer Polishing, Italian Duco Painted Finish.

Project Challenges: Our esteemed client, Mr. Anamul Shohag, residing in the Banasree area of Rampura, Dhaka, commissioned us to create a modern duplex staircase. Leveraging the spaciousness of his flat, we successfully installed a beautiful, functional, and comfortable staircase that precisely met the client's expectations. His high satisfaction is our greatest achievement.

Completed Project

Project Name: Main Gate

Project Location: DOHS Mirpur

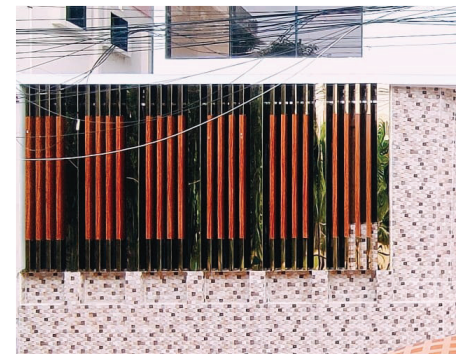

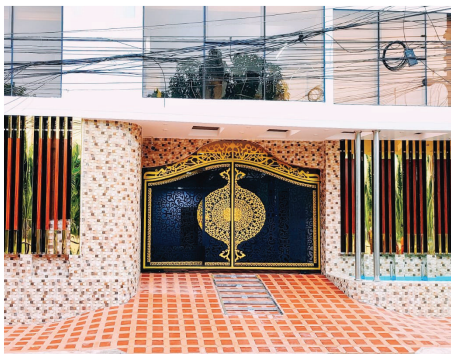

Client Name: Kaji Habib

Timeline: December 1, 2021, to December 15, 2022

Materials: Mild steel box frame with precision cutting, Italian Duco Painted Finish.

Project Challenges: Our esteemed client, Mr. Kazi Habib, residing in the Dhaka Mirpur DOHS area, entrusted us with the creation of a modern main gate. This contemporary design incorporates high-quality steel and Italian painting, along with an auto remote control system for convenient operation. We're pleased to report the client's high satisfaction with our work.

Project Scope: In addition to the main gate, our scope of work encompassed other elements such as balcony glass railing, common stair railing, Thai aluminum, rooftop railing, exterior louver, and more.

Completed Project

Project Name: Glass Railing

Project Location: Bashundhara R/A

Client Name: Ahsan Habib

Timeline: December 1, 2022, to October 20, 2023

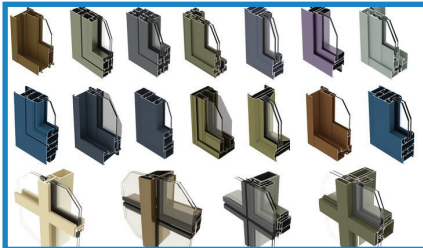

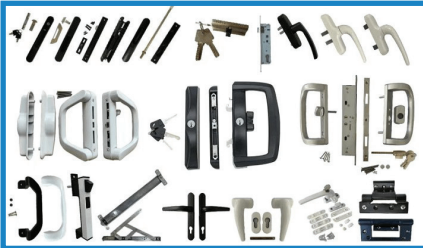

Materials: High-quality stainless steel baluster, 10mm tempered clear glass, high-quality finishing.

Project Challenges: Our esteemed client, Mr. Ahsan Habib, residing in Bashundhara Residential Area of Dhaka, commissioned us to create a modern glass railing. Crafted from top-notch stainless steel and Nasir tempered glass, this contemporary design was part of a larger project that included various other tasks. We're delighted to share that the client is highly satisfied with our work, Alhamdulillah.
